What's New in the New CHEVROLET SIX

The Lowest Priced Car Combining Syncro-Mesh Shifting with Free Wheeling

With Silent Syncro-Mesh you enjoy dashless shifting at all speeds—back and forth—no matter whether you are “in” free wheeling or not. When descending a steep hill you can shift rapidly from high to second and gain the full braking power of the engine. Chevrolet's Free Wheeling enables you to coast, free from the drag of the engine, when you lift your foot from the accelerator. And you can shift gears with never-to-be-forgotten ease!

A Popular New Note in Fisher Body Styling

A new ultra-modern silhouette is gained by slanting the windshield at a smart new angle—streamlining the front body pillars—and utilizing the distinctive style points of today's finest cars. Interiors have rich new upholstery, handsome chrome-plated fittings, adjustable sun visor, finger-touch adjustable driver's seat, and a convenient ash-tray on the dash. Striking features include deeper radiator with built-in grille, arched double tie-bar, bullet-type headlamps, adjustable hood ports.

A GENERAL MOTORS
VALUE—PRODUCED IN CANADA

The new Chevrolet Six may be purchased on easy G.M.A.C. terms. Lasting satisfaction is assured by the General Motors Owner Service Policy.

Sommerfield & Mayer
STONY PLAIN.

A Repeat Performance.

At the urgent request of the many who were unable to gain admission to the ball on the evening of its first showing in Stony, Friday, Dec. 4, a repeat performance of “Too Many Wives” will be presented by the same cast of characters in Moose hall tomorrow evening, Jan. 22. Come early, as on the last date there was Standing Room Only, when the curtain went up.

Knocked Down by Car.

Edmonton Journal: “Claiming \$9155 for injuries allegedly received when knocked down by a car driven by H. T. Walton on Portage ave. on December 1, 1931, Dominic Malawski has filed statement of claim. He claims that the defendant was driving on the wrong side of the street; was speeding; failed to sound the horn; and had faulty brakes. He claims also that he suffered multiple fractures of the skull and a fracture of the base of the skull when struck; and asks \$8000 general damages and \$1155 special damages.”

Silver Wedding Celebrated.

A happy party of friends of the worthy couple Mr and Mrs Henry Schneider gathered at the latter's residence in Rosenthal district on the evening of Monday Jan. 11th to help celebrate with them the 25th or Silver anniversary of their wedding day. Cards, games and dancing were indulged in. Among those present were—

Mr and Mrs Peter Baron
Mr and Mrs K. H. Baron
Mr and Mrs Geo Goebel
Mr and Mrs Jac Altheim
Mr and Mrs Clarence Brummet
Mr and Mrs Joe Lutz
Mr and Mrs Rudolf Goerz
Mr and Mrs A. Kotachersky
Mr and Mrs J. J. Kulak
Mr and Mrs Geo Kulak
Mr and Mrs Pete Kulak
Mr and Mrs Geo Kobenna
Mr and Mrs Bernard Miller
Mr and Mrs Geo Schmeltz

Mr and Mrs Schneider had been married on January 11, 1907, at Rosenthal Immanuel Lutheran church, the ceremony being performed by Pastor Goez, the incumbent at that time.

Just before midnight an intermission was called, when Mr P. Baron, on behalf of the assembled friends, presented Mr and Mrs Schneider with a valuable silver service and other appropriate gifts. Mr Schneider accepted the gifts on behalf of himself and Mrs Schneider, in an appropriate reply.

At the close of the proceeding all present joined in wishing the worthy couple continued happiness and prosperity.

Some Truths and Lessons

It is in times of adversity rather than of prosperity that the true character and strength of men, communities and nations is demonstrated. The world learns few lessons when things are booming and prosperity blossoms on every hand. When the sun shines and soft winds blow people are content to idle along, satisfied with things as they are. It is when the sun is hidden behind the storm clouds and the tempest rages that men, communities and nations are tested. It is then they begin to learn, bitter though the lessons may be.

Galling as the present world-wide depression undoubtedly is, bringing loss and suffering in its train, it is probably serving a useful purpose in teaching the world a few lessons and re-emphasizing a few old truths, which, in the days of their prosperity, men and nations apparently forgot; at least they ignored and gave no heed to them. Now these truths and lessons are being remembered and re-learned, and possibly, because the present world depression is more widespread and more severe than any of its predecessors, the lessons it is teaching will be taken a bit more seriously and have a more lasting and beneficial effect than ever before.

Yet these truths and lessons are as old as this old world itself. The truths are fundamental; the lessons are stern and unshakable. One truth is that no man, no community, no nation can live unto itself alone. Not one of them is self-sufficient. Each is dependent to a greater or less extent on all others. God so made the world and puny man, notwithstanding his boasted powers and strength cannot alter it. This truth is becoming more widely recognized and accepted every day this depression lasts. It, and it alone, is driving the reluctant lesson home.

Another truth that is once again growing into acceptance is that mankind is of greater importance and truer worth than anything and everything that man can invent and develop. Man has used his God-given intellect and powers to invent and develop machines primarily intended to be the servants of man, to supply his needs and cater to his comforts and well-being. But in his eagerness to invent, and develop, and create a machine-age, an age that was to be all-golden for him, man has over-reached himself until now, in many ways, the machine has become the master and man the servant.

To serve a machine-age, man has built himself huge cities wherein people live together like rabbits in a warren; packed like sardines in a box. Individuals have largely lost their individuality in the mass, with initiative remaining with the few. The friendliness of the small town and the rural parts has been lost in the great cities where neighbor hardly knows neighbor. That self-respect and self-confidence and initiative inseparable from being a personality amongst one's neighbors has been largely lost in becoming a mere unit in a city's teeming population.

Children grow up today without having enjoyed childhood's rights of a natural life amidst natural surroundings; all about them is artificial, and bred in such surroundings and atmosphere, life itself becomes artificial. The lesson that the world, perhaps, is beginning to learn is that we must get back to first things, and place them first in our scheme of life. The height of a city man's ambition should not be to amass greater wealth than he can profitably and beneficially use, and put forth his life's endeavors to making his city larger and larger, not necessarily greater and finer. Many are beginning to realize that the huge city is an evil, not a blessing; that man was not created to live and struggle in such surroundings. That, on the contrary, the small community is by far the happiest and the cheapest place in which to live, and that it confers advantages and pays dividends in health and contentment upon the centres of populations where thousands live from hand to mouth in uncouth surroundings and with little or no prospect of bettering one's conditions.

Economic conditions of this depression have driven hundreds of young men and women, attracted by the glitter of the cities, back to the old home, on the farm, in village and small town. For the time being, because would like, but the wisest of them will stay there, and in the long run they will be the happier and better off for the staying.

A Big Undertaking

U.S. Spending \$5,000 To Move Giant Tree

Uncle Sam is paying nearly \$5,000 for moving a giant magnolia tree in the Mall at Washington, to prepare for road construction there, in a \$100,000 programme for improvement of the Mall.

The magnolia is 38 inches in circumference at breast height and will be moved about 400 feet from its present location, near the fill in the Mall, in a northwesterly direction, to near Fourteenth Street. This involves the moving of a disc of earth about 26 feet in diameter and five feet thick, which weighs about 300 tons, in addition to the weight of the tree, not yet estimated.

It is said to be one of the biggest jobs of its kind in the world.

Centenarian Women

Six Times As Numerous As Men In Great Britain

There were 104 centenarians drawing old-age pensions in Great Britain on April 25 last.

This is stated in the annual report of the Commissioners of Customs and Excise, issued recently.

Of these 91 were women and 13 men. The oldest of all was a woman born in 1825, and therefore then 106. Another woman was 105, three were 104, and seven were 103. The oldest men were three aged 102. Twelve women had reached that age.

Radio telephone service has been established between Germany and Siam and a similar service is being planned between Germany and Egypt.

Nerves A Complete Wreck Sat Up Half The Night

Mrs. John Ross, Dark Lake, Ont., writes:—"I was troubled so much with my nerves I was a complete wreck."

I could not do my work, and would have to sit up half the night on account of not being able to sleep.

One day a friend recommended Milburn's Heart and Nerve Pills. I used one box and got relief, and by the time I had taken six boxes I was as well as ever."

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Paris Police Keep Quiet

Refuse To Give Out Information About Person Leaving Home

If your husband or wife deserts you in Paris, it won't do any good to go to the police about it. And that applies to a son or daughter over 21 as well.

For the missing persons' bureau at police headquarters, handling over 25,000 requests a year, keeps the secrets of people who have chosen to leave home.

Suicides, accidental deaths and crime cases are reported at once to the families of the persons concerned, but since the law does not oblige a son, daughter, husband or wife to stay at home unless he or she wants to, all the police will say is "We have located Jules, or Marie. He, or she, is well and happy and does not wish you to know where he, or she, is staying."

SHE LOST 21 LBS.

And "Feels Full of Life"

Although she is reducing her weight, this woman "feels full of life." So there can't be much wrong with her treatment.

"I was putting on weight, and have been trying to reduce. I have tried lots of things with no result. But four weeks ago a friend told me about Kruschen Salt, and I thought I would give them a trial. I have taken two bars and am feeling like I have lost 21 lbs. I take a half-teaspoonful in a cup of hot water as soon as I get up. I shall go on taking it until I can make one full meal of life."—Mrs. G.

Kruschen Salt does not reduce you over-weight like other purgatives. It claims to do. But taken regularly over a period of time—with a modified diet and gentle exercise—it restores you in a glass of hot water every morning before breakfast will take away unhealthy flesh and restore your figure to its normal weight. Yet at the same time—build up health with a great increase in vigor and energy for you!

Portable "Phone Booth"

To enable workers in a factory at Hamburg, Germany, to telephone in peace, a perambulating telephone booth has been perfected and is being tested. It has unusually thick walls and doors of sound-absorbing material so that wire conversations can be held near heavy machinery in operation.

Persian Balm is unrivalled for promoting feminine loveliness. Tones and rejuvenates the skin. Makes it exquisitely soft-textured. Makes hands beautifully white. Expertly recommended to soothe and relieve roughness or chafing caused by weather conditions. Indispensable to every dainty woman. Cool and refreshing. Delicately fragrant. Magical in results. Never fades. A vestige of stickiness. Persian Balm is the one toilet requisite for the woman who cares for charm and elegance.

Saskatchewan Poultry Pool

Women guide the destinies of one of western Canada's largest enterprises—the Saskatchewan Poultry Pool. Last year the pool, of which majority of the directors are women, grossed a turnover of over \$800,000. The president is Mrs. W. Morrison, of Spaulding, Sask., a farmer's wife.

Miller's Worm Powders not only exterminate intestinal and other worms, but they are a remedy for many other ailments of children. They strengthen the young stomach against biliousness and are tonic in their effects where the child suffers from loss of appetite. In feverish conditions they will be found useful and they will serve to allay pain and griping in the stomach, from which children so often suffer.

Huge Sum For Relief

Government and municipalities of Ontario spent \$15,738,000 on unemployment relief in 1930 and 1931. Hon. George S. Henry, provincial premier, told a Toronto service club recently. A total of 43,000 persons had been given employment, he said.

Remove all callouses enlargements from your stock with Dougl's Egyptian Liniment, a wonderful remedy.

Like Canadian Tobacco

The British smoker is tuning his palate to Canadian tobacco. Imports through the port of London of Canadian tobacco in 1931 amounted to 2,070,000 pounds against 728,000 pounds in 1930. Formerly Canadian tobacco was blended with other grades but a large proportion is now sold separately.

W. N. U. 1925

General Dawes

Retirement As U.S. Ambassador To Britain Is Cause Of Regret

There will be regret that Charles G. Dawes is shortly to retire as United States ambassador to Great Britain and from public life altogether. Mr. Dawes has been a useful figure in international politics of recent years. He has also been a picturesque and likeable type.

Mr. Dawes was a banker and financier when he first came into international prominence, and it is possible that he may return to this field, in his home State of Illinois. He served as a general under General Pershing with the American Expeditionary Force in the Great War, and later, as everyone knows was author of the Dawes plan for German reparations payments—later superseded by the Young Plan, and which plan, in turn, may now be drastically revised or even discarded altogether, in the light of Germany's serious economic position. Next came a turn by Mr. Dawes as Vice-President of the United States, and here he found opportunity for some of the plain speaking that has consistently marked his career. General Dawes appeared to enjoy "lecturing" the Senate at Washington.

The retiring ambassador will drop out with very real appreciation of himself at the hands of the British people, of whom he has been an admirer. A year or two ago he went out of his way to publicly praise their achievement in the War and their pluck and honor in the matter of war debt payments. Mr. Dawes indeed was so outspoken on this occasion that if what he said had come from anyone else Washington might have been tempted to regard it as an "incident."—Regina Leader.

Could Hardly Live For Asthma, writes one man who after years of suffering has found complete relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesaler.

Popularize Tomato Juice

A campaign for the popularizing of the "tomato cocktail" may be inaugurated if the Eastern Canada Fruit and Vegetable Jobbers' Association acts upon a suggestion thrown out by Hon. Dr. R. J. Manion, Minister of Railways and Canals. Dr. Manion addressed the delegates to the association's seventh annual convention at Ottawa.

London, Eng.—A world platinum accord to promote and control sale of this metal has been reached.

Jellioce Resigns From Legion Office. Earl Jellioce, famous admiral, is retiring from the presidency of the British Legion on account of ill-health. He has occupied the post for three years. Earl Jellioce visited Canada last autumn and was ill on his return, being confined to his home on the Isle of Wight for some weeks. He remains grand president of the British Empire Service League.

Always Ready and Reliable.—Practically all pains arising from inflammation can be removed with Dr. Thomas' Electric Oil. Simply rub it on the sore spot and it is quickly absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This fine old remedy is also a specific for all manner of cuts, scratches, bruises and sprains. Keep a bottle handy always.

Placing the Blame. The Soviet newspaper "Pravda" asserted editorially that responsibility for the Japanese occupation of Manchuria rests principally with the United States. The editorial laid the United States attitude to the policies of Secretary of State Henry L. Stimson which it described as directed at weakening Japan, excluding Japanese capital from Inner China and at the capital from Inner China and at the Soviet Russia.

Woodstock, Ont.—Although this town is in the centre of a dairy produce district the per capita consumption of milk amounts to a little more than one-third of a pint.

More Optimism Is Prevalent In Dominion's Western Northland Than In Other Parts Of Canada

Canada's western northland faces the coming year with more optimism than any other part of the Dominion. Developments and activities in mining and aerial transportation during the past year, indicate the opening of a new and prosperous empire on the fringes of the Arctic Circle.

Rich and vast deposits of radium-bearing ore and equally rich deposits of silver have been discovered at Great Bear Lake, 1,500 miles north of Edmonton, Alberta. Radium deposits at Labine Point and silver deposits at Echo Bay have proved to be very valuable and could easily meet the high cost of transportation—\$400 per ton, states Dr. J. S. Spence, Mineral Technologist of the Federal Department of Mines, in his report of his survey of the Great Bear Lake district.

Continued expansion of aerial transport and passenger service is bringing these rich "mineral" fields within easy distance of the outside world. Waterways, ALNA, 300 miles north of Edmonton, is the nearest railway point, and ore is now shipped here from the north by airplane. One of the largest airplanes in Canada, a Junkers machine built for Canadian Airways, Limited, for service in the north, may be used for freightage ore and supplies from the mineral fields this winter.

A flying base has been established at McMurray, and weekly mail deliveries are made from here to Aklavik, 1,500 miles north.

Poverty, unemployment and depression are things, practically unknown in the Northwest Territories. The Eskimos at the Mackenzie delta are in a prosperous condition and are the possessors of many schooners with high-powered auxiliaries. These schooners, costing from \$5,000 to \$7,000 each, provide floating summer homes as the people move about the delta or along the sea coast. Credit to the natives and trappers has been cut down this year and fur prices are lower than usual, but they have ample supplies, and a good crop of fur is expected.

Canada's far north country is becoming more and more self-sustaining. Wild game provides plenty of meat for the skilled hunter and each man grows his own vegetables. The crop along the Mackenzie River last summer was the best in years. Health prevails everywhere. Doctors, who are the only professional men in the north, would starve if they were not hired by the government to give medical attention to the Indians and Eskimos. It is said.

The Northwest Territories cover two-fifths of the total area of Canada, but there are only about 1,000 whites and 5,000 natives throughout the whole country. An influx of prospectors, mining men and tourists, however, is expected in the coming summer, owing to the interest surrounding the Great Bear Lake radium discoveries. Activities in this area last year increased freightage along the Mackenzie River enormously. More than \$10,000 was expended on road building and improvements at Smith Portage, a 16-mile portage on the Mackenzie River near Fort Smith. Preparations for an active year in this district during 1932 are now underway.

Hudson's Bay Company, river steamers, formerly only used for the transport of their own cargoes and

the company employees, now are available for tourist travel.

Northward the tide of empire certainly makes its way. Since the time Peter Bond established a port at Lake Athabasca before 1800, when southern Alberta, British Columbia and Saskatchewan were unexplored, for many decades the tide flowed sluggishly. In recent years, however, there has been a quickening of the current, the result of which is plainly evident, and which will become more so when the spring break-up raises the temporary barrier into the northland.

By Annette

SCHOOL GIRL FROCK THAT IS EASY TO WEAR WITH SKIRT THAT SWISHES ABOUT IN RUNNING

This smart little two-piece woolen of fashionable light weight, favors the smart, wrapped arrangement at the front. It is exactly the same as the college miss in wearing.

It is that lovely new shade in Spanish tile. The bone buttons match the fabric. The rolled collar, cuffs and belt are plain woolen in brown shade, a most pleasing combination. Style No. 624 may be had in sizes 8, 10, 12 and 14 years. Size 8 requires 1 1/2 yards of 38-inch material with 3/4 yard of 35-inch contrasting. And you'll be amazed at how simple it is to make it. The three-piece skirt is circular. It is attached to the bodice, that also cuts in three sections.

Other attractive fabrics for its development are wool jersey, wool crepe, wool challis and tweed-like cottons. Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

The beautiful Tyrian purple dye is made from the glands of Mediterranean sea snails, of which about 200,000 color the hair.

The fibrous waste from sugar cane is being made into insulating lumber, that is strong, and tough, and light in weight.

An electrically driven machine now chops the hay crop, removes its moisture, and blows it into mows.

Canada Producers Bending Energies Forward Finds Better Quality In Farm Production

"The markets for Canada's agricultural products for the future would seem to depend upon quality as well as quantity of production," observes Dr. J. H. Grisdale, Federal Deputy Minister of Agriculture. "Canadian producers are evidently becoming more and more conscious of this situation, bending their efforts toward the improvement of the quality of their products. Many of our agricultural products going overseas command a premium on the British and other markets." Dr. Grisdale also points out that prices for all agricultural staples are now on an export market basis, and that while these are probably not quite so satisfactory as they might be, production is definitely expanding and the farmer knows exactly where he stands relative to prices, that is to say: Canadian prices are world prices, and are not likely to be seriously affected by any constant increase in production.

Prepare Year Ahead For Dry Land Garden

Result Of Experimental Work Carried On At Lethbridge

Experimental work at Lethbridge, Alberta, shows that to ensure a fair measure of success in the kitchen garden on the dry land farm it must be prepared at least one year ahead, Superintendent W. H. Fairhead, M.Sc., L.D., in his annual report just issued points out that it is desirable to reserve twice the area desired; to apply well rotted manure to the part to be summer-fallowed just before ploughing; to cultivate just enough to curb weeds; to plough about eight inches deep; to make rows wide enough apart to permit the use of the hand cultivator; and to provide a suitable windbreak on the windward (not necessarily the northward) side of the permanent garden site. Vegetables in a dry land garden usually mature earlier than on irrigated land.

Cost Of Producing Hay

Cost Estimated At Central Experimental Farm At Ottawa

The annual report of the Dominion Field Husbandman, E. S. Hopkins, B.S.A., M.Sc., Ph.D., contains an interesting reference to the cost of producing hay (1930) at the Central Experimental Farm, Ottawa. The field was 4.14 per acre. To produce this crop a total expenditure of \$28.88 was necessary. This brought the cost of the hay to \$6.49. The crop was valued at \$42.43, leaving a profit of \$15.55 per acre. Considered as return on manual labor the total payment on this item would be at the rate of 73 cents per acre for protection and marketing. However, had the crop been marketed there would have been a further labour cost of \$2.96 per ton.

Canada Is Weathering This Period Of Difficulty In Favorable Manner According To Economist

Donald M. Marvin, economist, writing on Canadian business conditions in the Royal Bank of Canada monthly news letter, says "Canada is weathering this period of difficulty in a favorable manner. We reproduce his article in part.

The Canadian business situation at the end of 1931 reflects the difficulties resulting from two years of worldwide depression. There are few industries which have not been seriously affected. The decline in the price of agricultural products has been particularly severe and the difficult situation created by these conditions was further aggravated by drought in Western Canada. Gold production has continued to expand and the record, established by the 1931 output is one of the outstanding features of the year. Industrial activity and construction work have been maintained in reasonable volume and employment has suffered less contraction than in other countries. Canada, however, is dependent upon foreign purchases for the disposition of a large part of her products and has keenly felt the decreased purchasing power of many of her customers. In addition, Canadian industrialists have had to contend with the confusion resulting from numerous adjustments in her foreign exchange relationships.

The volume of agricultural production was considerably reduced as a result of extreme drought conditions in the Prairie Provinces, particularly in the southern sections of Saskatchewan. Wheat and other crops were severely damaged and farmers in the affected areas did not harvest sufficient quantities to meet their own requirements. Alberta and the northern districts of Saskatchewan and Manitoba had a more successful year, but the Western wheat crop alone is 100 million bushels smaller than in 1930—a year of moderate harvests only. Conditions in Eastern Canada and British Columbia were more favorable and some crops created new records. Apples and potatoes are so plentiful that their disposal has presented a problem: the tobacco crop in Ontario is a bumper one of splendid quality. Prices for all farm products have declined to very low levels and, with the reduced crops in the West, the value of Canadian field crops shows a serious reduction from previous years, being officially estimated for 1931 at \$481,250,000 as compared with \$631,593,000 in 1930 and \$948,981,400 in 1929.

Livestock and dairy farmers had excellent pasture and plenty of feed for their herds. Increased interests in dairying has been shown in Alberta and Saskatchewan, and but-

ter production has been greatly expanded. In Saskatchewan, output for the first ten months of the year exceeded 17,000,000 pounds, an increase of 35 per cent. over the corresponding period of 1930. This total is greater than the highest previous full year's output for Saskatchewan, viz. 16,632,745 pounds. In 1928. Exports of butter from Canada to Great Britain were resumed on substantial volume after a lapse of some years. The total quantity shipped during the twelve months ended October 31st, amounted to 9,922,800 pounds against 1,157,400 pounds in the previous year. The export of cattle to England has also been resumed on a substantial volume. Trial shipments were also made to France and Belgium. In order to provide a regular supply of high-grade stock for the export market, the Ontario Government has arranged for the finishing during the winter of selected animals from Western Canada by Ontario farmers.

Supplies of wheat are still large but are somewhat reduced from last year. Export shipments increased in volume towards the end of the year and prices have shown an upward trend. A substantial reaction in the large wheat stocks of wheat and the return of prices to a profitable level would do much to re-establish Canadian agriculture on a satisfactory basis.

The rapid expansion in gold output was the outstanding feature of the Canadian mining industry last year. In 1930, the value produced was \$43,483,600; for 1931, the total for all Canada is placed at \$55,000,000. Ontario production alone equaled the Dominion total in 1930. Quebec, the second largest gold producing province of the Dominion, doubled its output, the total reaching 16,000,000 as compared with \$2,950,170. Manitoba and British Columbia also report increased production. Established mines greatly expanded their output during the year; mill capacities were increased and great improvements were made in methods of recovery. New mines have entered the ranks of the shippers, and, in several instances, old properties, where production had become unprofitable, are again being worked. Exploration and prospecting work have been pushed forward vigorously and many promising finds have been reported in new areas in Quebec, Ontario, Manitoba and British Columbia. The prospective development of these areas promises continued expansion in this industry.

Canada has been fortunate in maintaining her production and general business activities at present levels when other countries are faced with conditions of the greatest difficulty. Unemployment and its accompanying hardships have been felt less in Canada than in most countries. Promising features in the present economic outlook include the healthy condition of savings deposits, the strong technical position of Canadian manufacturers and a prosperous gold mining trade has been reflected in the fall-off in the volume of current loans clearing house returns. The most difficult situation in Canada is that of agriculture. A revival of world trade and a return of profits to agriculture must precede any general return of prosperity to this country, but Canada is weathering this period of difficulty in a favorable manner and will be in a position to participate in the first material advance.

AS GANDHI CAME HOME TO JAIL

Absorbed in spinning threads for homespun garments, Mahatma Gandhi, famous Indian leader, is shown on the deck of the "Pillma" as the ship neared Bombay. The frail "prophet" of India was greeted by a riot between his supporters and opponents, in which twenty-five persons were injured. Shortly after his arrival Gandhi was imprisoned once more in Poona Jail, from which he is directing a new campaign of civil disobedience, which British officials are putting down with stringent methods.

WORLD HAPPENINGS BRIEFLY TOLD

The killing of six Communists, including two women, by Rumanian frontier guards, when they attempted to escape into Russia, aroused great feeling among the people.

Several leading Seattle hotels announced recently that Canadian money was being accepted on a par basis with American coin in payment of hotel bills.

Canon George Osborne Troop, one of the outstanding priests of the Church of England in Eastern Canada, died at his home in Halifax recently in his 78th year.

Dr. R. L. King, Prince Albert, was elected president of the Saskatchewan College of Physicians and Surgeons at the conclusion of the annual meeting of the Saskatchewan Council in Regina.

Scientific revision of the United States tariff to permit protective levies upon petroleum and its products will be sought in a new bill being prepared by independent oil producers. Specific details have not been worked out.

At a conference of representatives of all veterans' organizations in Canada, held at Ottawa, it was decided the representations to be made to the government in connection with matters affecting ex-service men of this country will be presented by them as one body.

Twenty-nine persons were killed and 317 injured in railway accidents in Canada, during October, it was shown by a report of the Board of Railway Commissioners. Of the 232 separate accidents, 38 occurred at highway crossings, the majority involving an automobile.

Diploma For African Native

His Apparent To Chieftainship Of
Tribe Graduate Of Chicago
University

The heir-apparent to the chieftainship of a tribe of 25,000 African natives in Nyassaland was among 257 students at the University of Chicago who recently received diplomas and certificates from President Maynard Hutchins.

He is Kamuzu Banda, who ran away from his jungle home when he was 9, made his way to South Africa where he worked in a diamond mine earning enough money to come home. He made his way through college by compiling for the anthropology department a complete dictionary and grammar of his little known tongue, and by jotting down folk tales.

Banda is 24. He said he planned to take up medicine and finally return to South Africa to help his people.

The world's oldest book is said to be a recently discovered tomb in China. It consists of 78 wooden leaves, fixed together with string, and dates back to 100 B.C.

There's an ancient theory that it is impossible to have less than nothing. But whoever thought that up lived in the days before overdrawn bank accounts.

Famous Vegetable Pills Make Short Work of Indigestion

"After the first dose I was made aware of their very real tonic value," writes Miss M. "I was troubled with indigestion and Sick Headaches. Because they are PURELY VEGETABLE, a gentle, effective tonic to both liver and bowels. Dr. Casser's Little Liver Pills are without equal for correcting Constipation, Acidity, Bileousness, Headaches, and Poor Complexion. 25c. and 75c. retail packages. Sold everywhere. Always ask for them BY NAME."

Recurrence Of Drought Periods

Practical Research Will Assist In
Acquiring Better Knowledge Of
Climatic Conditions

The Hon. J. F. Bryant, K.C., chairman of the Saskatchewan Commission on Conservation of Water and Afforestation, issued the following statement to the press today.

Believing that a mistake had been made in the past in Saskatchewan and Western Canada in that no systematic or practical research had been carried on in the matter of climate and weather conditions, particularly when the farmers who are the backbone of the Province have suffered so much as a result of drought, frost and flood, and when through the lack of practical knowledge on the subject, on account of drought conditions during the past few years, a large fertile area of southern Saskatchewan has been badly injured by the blowing of the soil, the Commission on Conservation appointed a sub-committee to study weather conditions, climate, rainfall and water supply in their relationship to all external causes and effects operating in the drought area of the Province and surrounding territory.

The committee consists of Hon. J. F. Bryant, Dr. T. A. Patrick and Dr. W. D. Cowan. The committee have been busily engaged for over two months in reading carefully the latest authorities on the subject, and in order to get the very latest information with particular reference to Saskatchewan conditions, have written to some of the world's greatest authorities on the subject, including C. E. P. Brooks, Honorary Secretary of the Royal Meteorological Society, London, England, Ellsworth Huntington, Dr. Andrew E. Douglass of the University of Arizona, the Carnegie Institute of Washington, the Smithsonian Institution of Washington, and A. J. Connor, Climatologist for Canada. We have written to the Secretary of Agriculture of the United States and of the States of Montana and North Dakota, inquiring whether they have made any investigation of the subject and requesting that they join with us in the matter of research, so that we can share in the results obtained, and take united action to combat conditions if deemed advisable.

Mr. F. E. Clements in a very able work on "Plant Indicators," makes certain observations on conditions in the western United States which are equally applicable to conditions in Saskatchewan.

"A study of settlement in the West since 1865 reveals the fact that it corresponds more or less closely to the climatic cycle. The exceptions are afforded by the rapid influx after the homestead act, the Kinkaid Act, etc., or after the opening of new regions. The general movement of settlers has advanced and receded in almost perfect agreement with the wet phases and drought periods of the climatic cycle (of Bruecker, Huntington, 1914: 89). A few years of unusual rainfall have afforded unpropitious real-estate dealers and immigration commissioners an opportunity to dispose of even the most worthless land. The ensuing drought period then led to crop failure and the wholesale abandonment of the region, to be followed by another influx of settlers during the next wet phase. In more than one region of the West this process has been repeated three or four times, and its disastrous operation will continue until the States and the National Government recognize the necessity of proper land classification and of adequate regulation of settlement.

"The knowledge that drought periods will recur is indispensable to any accurate and successful classification of land and to the economic management of dry-farm, grazing range, or forest. These results, which are of the first importance for the west, do not depend necessarily upon the accuracy of predictions based upon the sun-spot cycle. They are clearly indicated by the actual experience of the last 60 years, which not only confirms the recurrence of drought periods, but also suggests the interval. However, it is clear that it would be of the greatest value to be able to forecast the date, duration, and intensity of each drought period with some accuracy, as well as to anticipate the increasing rainfall of the wet phase. This would not only permit the tak-

"Life a Misery" From Headaches

Thanks to Dr. Williams' Pink Pills (Tonic) and a mother's advice she is well again.

"Headaches nearly drove me frantic," writes Mrs. J. F. Anchinos, Ingersoll. "The pain would be so severe that my eyes would swell and my life was a misery. Finally my mother saw where Dr. Williams' Pink Pills had helped someone. She bought a box and made me take them. I was so sick of doping, I had no faith, but thanks to mother's persistence and the pills I am here and well today."

PROVIDE IRON

If your blood condition is below par you probably need the iron which Dr. Williams' Pink Pills provide. You are only as well as your blood is rich. Poor blood causes headaches.

Don't let life be "a misery" to you. Get a box of Dr. Williams' Pink Pills at any drugist's, 50 cents a box. Don't delay. Be sure to get Dr. Williams' so that the drugist will know exactly what you want.

ing of the necessary precautions against the disasters due to drought, but it would also make possible the development of an optimum system of management. This would enable the farmer to fit his crops and methods of tillage to the variations in rainfall and would permit the stockman to increase or decrease his herds or to vary his supplies of forage with the wet and dry phases of the cycle. In short, the cycle management of all the basic practices of the West would provide the maximum insurance against loss or disaster and would afford the greatest possible annual returns."

Recipes For This Week

(By Betty Barclay)

COFFEE CAKE

- 1 cup sugar.
- 1 cup raisins.
- ½ cup Crown Brand Corn Syrup.
- 2 eggs.
- 1 teaspoon cinnamon.
- 2 cups flour.
- ½ cup Mazola.
- ½ cup strong coffee.
- 1 teaspoon soda.
- ½ teaspoon nutmeg.

Beat eggs and sugar until very light, then add the syrup and stir in the flour sifted with the other dry ingredients and mixed with the clean and dried raisins. Then add coffee with the Mazola and bake in a rather quick oven until the cake leaves the sides of the pan.

DELICIOUS CREAM COOKIES

- 1 cup Mazola.
- 4 beaten eggs.
- 1 cup nut meats.
- ½ cup chopped raisins.
- 1 teaspoon vanilla.
- 4 cups flour.
- 2 cups brown sugar.
- ½ cup sweet cream.
- ½ cup Crown Brand Corn Syrup.
- 1 teaspoon Lemon Essence.
- 1 teaspoon salt.
- ½ cup Benson's Corn Starch.
- 4 teaspoons baking powder.

Cream the Mazola with the sugar and then add the eggs and beat until light. Mix the cream with the corn syrup and add to the batter alternately with the dry ingredients sifted together and mixed with the nuts and raisins. Flavour and drop by spoonfuls on buttered baking pans and cook in moderate oven (350 degrees Fahrenheit).

Custard Pie!

Rich, nourishing and delicious!
Apple, butter, vanilla, cream, sugar, eggs, cornstarch, nut meats, and 160 other delightful new recipes are included in your wonderful new cook book. Send us a few cents for your free copy today!

SUNDAY SCHOOL LESSON

JANUARY 24

JESUS AND THE SAMARITAN WOMAN

Golden Text: "Christ Jesus came into the world to save sinners."—1 Timothy, 1:15.

Lesson: John 4:1-42.

Devotional Reading: Isaiah 55:1-7.

Explanations and Comments

The Meeting Of Jesus and the Woman Of Samaria, verses 1-9.—On passing Sychar the disciples went on to the village to buy food while Jesus sat down on the curb of Jacob's Well to rest. A woman approached. "She was like a waterlogged ship, not a total wreck, but incapable of movement and needing both to be towed and steered into harbor." Great was her surprise when Jesus, a Jew, asked her, a Samaritan woman, to draw water for him.

The Offer Of Living Water, verses 10-14.—Jesus replied in words full of yearning tenderness: "If you knew what God's blessings are, and how freely He gives them: if you knew that He who speaks to you has it in His power to give them all; you would be the speaker then, and He would not refuse you. He would give you the living water."

The woman must have been familiar with the figure of speech Jesus used, and must have known that they held a hidden meaning, but the promise to treat them literally and said that the well was deep. He had nothing with which to draw up water. He was greater than their father Jacob who had dug the well and used it?

A short time quenches thirst for but a short while, the solemn Jesus said: "the water which I give becomes in one a well of water that springs into life itself." Thus by a figure of speech, rather than by a declaration of doctrine, Jesus taught that when one is truly saved, he finds perfect satisfaction.

Under Conviction, verse 15.—Has the woman of Samaria meaning entered the woman's mind when she asks for this water, that she might never thirst and might be saved the trouble of coming there to draw? The water of life is not to be had for the nonchalant asking—it must be thirsted for. "She understands the gift now, but she neither understands it rightly nor desires it rightly. Our Lord is a surgeon, and must cleanse the sore before He heals it. Most women would have her convince herself. So without making any charge against her, He answers, 'Go call thy husband.'"

"I have no husband," the woman answered. "Thou hast well said, for thou hast said five husbands, and he, whom thou now hast is not thy husband;" this knowledge of her life convinced the woman that Jesus was a prophet.

The Dominant Nickel

More Five-Cent Coins Issued At
Ottawa Mint Than Any Other
Denomination

The great Canadian nickel continues to dominate the operations of the mint, if the annual figures issued by the new Canadian Government Department mean anything. The year just closed no fewer than 1,622,000 coins of the five-cent denomination were delivered from the mint. The number exceeded even that of the pennies, of which a paltry 5,140,000 were issued; while dimes were a poor third, only 2,294,000 being minted in 1931.

The aristocrat of the silver coin—the 50 cent piece—appears to have had little demand in this time of depression, for only 68,000 were issued last year. The humble, but nevertheless "two-bit" piece was coined to the value of \$212,000, or \$4,000 pieces, valued at 25 cents each.

In all, the Royal Canadian Mint struck 11,618,890 pieces in 1931, and issued 13,970,000.

The great value of rough and fine gold and fine silver received by the mint last year, was \$35,638,176. Deliveries from that institution to the Department of Finance had a value of \$35,176,551. Trade bars sold were valued at \$548,541.

The mint last year, did not coin any \$10 or \$5 gold pieces.

Soviet Oil Production Short

The production of oil in the Soviet Republic in 1931 amounted to 22,300,000 tons, 16 per cent short of the program for the year, but almost 4,000,000 tons in excess of the 1930 figures.

Wiry kangaroos from Australia are now contributing their tendons to American surgery. The muscle sinew from these animals is used by doctors to make stitches in human cuts.

Russian Wheat Yields

Soviets Plan Large Increase In
Acreage For 1932

Russia plans to sow 348,000,000 acres to crops for harvest next fall—8,000,000 more than last year.

This was reported by the United States agriculture department which also said the 1931 wheat crop of Russia, the world's largest producer, "may definitely be considered a poor one."

The 1932 plan for the spring sown area calls for 252,000,000 acres compared with 241,000,000 planted last spring. The largest increase in this area, however, will be in industrial crops, such as cotton and flax, with the spring wheat acreage remaining practically the same. Spring wheat is the most important.

"A further significant factor in the situation," the department's Berlin office reported, "is the announcement by the Soviet authorities that they intend to concentrate on quality rather than quantity."

Summing up the 1931 wheat harvest, he added:

"Although yields of winter wheat were fairly satisfactory, much of the spring acreage failed to make a crop, principally because of drought." As a result, exports have been curtailed. Sowings of winter grain last fall did not equal plans, and are below acreage sown the preceding year. Wheat procurements from collectives are also below announced plans due to interference from peasants.

Helena Keller's View

There was something both touching and beautiful in blind Helen Keller's comment on being taken to the top of the Empire State Building in New York: "I wonder if the view you see, is more beautiful than mine. You see what you see, but I have my imagination to draw upon."—Toronto Globe.

The mineral pyrite got its name from a Greek word meaning fire, because sparks are produced when pyrite is struck with iron.

RESTFUL SLEEP

for FRETFUL,

FEVERISH CHILD

—With Castoria's regulation

When your child tosses and cries out in his sleep, it means he is not comfortable. Very often the trouble is that poisonous waste matter is not being carried off as it should be. Bowels need help—need gentle help—but effective. Just the kind Castoria gives. Castoria is a pure vegetable preparation made especially for children's ailments. It contains no harsh, harmful drugs, no narcotics. Don't let your child's rest—and your own—be interrupted. A prompt dose of Castoria will urge the bowels to act. Then relax your mind and restful sleep! Genuine Castoria always has the name:

CASTORIA
CHILDREN CRY FOR IT

PIERRE LAVAL IS AGAIN PREMIER OF FRANCE

Paris, France.—Pierre Laval, sturdy little Auvergnat, again became head of the French Government as Premier in the reorganization of his cabinet.

He also took over the portfolio of Foreign Minister, held for so long by Aristide Briand, and induced his old-time friend and predecessor in the premiership, Andre Tardieu, to accept the post of Minister of War, vacated by the death of Andre Maginot.

Thus M. Tardieu will go to Geneva as France's principal representative to the disarmament conference on February 2.

Succeeding Premier Laval in the all-important post of Minister of the Interior, on which the outcome of next spring's legislative elections may hinge, is young Pierre Cathala, a disciple of Laval and Tardieu.

To succeed Tardieu in the agriculture Department, which controls and cares for France's great rural population, the Premier selected Achille Fould, young former under-secretary, who was given ministerial rank.

The French cabinet crisis, one of the briefest in the history of the third republic, thus was terminated. Premier Laval said he had urged M. Briand to participate in the work of the new cabinet in whatever capacity he felt able—presumably as minister without portfolio—so as to lend the weight of his moral influence to the incoming government's endeavors.

After reconstructing his cabinet, the Premier took the new members across the street from his office to the Elysee Palace to present them to President Dornier, in accordance with custom.

Reorganization of the cabinet was decided upon after the death of War Minister Maginot had caused one gap, and the illness of M. Briand, the veteran foreign minister, resulted in at least a temporary vacancy.

The Laval-Tardieu team is one well tried in foreign relations. Premier Laval, although a newcomer to the diplomatic game, was France's spokesman during the past summer and autumn in conversations at London, Berlin and Washington, and was the first premier to welcome a German chancellor on French soil since the war of 1870. M. Tardieu was his country's High Commissioner to the United States, in 1918, one of the drafters of the Treaty of Versailles in 1919 under Premier Georges Clemenceau, and a negotiator at the London Naval Conference in 1930.

Drew May Attend Geneva Conference

Organizations Think War Veteran Should Be One Of Delegates

Toronto, Ont.—"Inclusion of Lieut. Col. George A. Drew in the Canadian delegation to the Geneva Conference in February is being aimed at by a number of organizations bringing their influence to bear on the Government at Ottawa in this regard," the Mail and Empire states it has been authoritatively learned.

"Those behind the move," the paper states, "are understood to be Canadian Legion executives and a number of kindred organizations desirous of having among the Canadian delegates one man who took an active part in the Great War."

Senator Thinks Canada Is Over-Governed

Says There Are Too Many Government Employees

Hamilton, Ont.—Senator George Lynch-Staunton, K.C., declared in an address here there was no reason why people should suffer want "if we lived within our means."

Senator Lynch-Staunton said Canada was over-governed. "The government has interested itself in everything at the people's expense. Parasites swarm everywhere and every fifth person in Canada is the servant of one government or another."

W. N. U. 1925

Governor-General Postpones Visit

Trip To Western Canada Will Be Made Next Autumn

Ottawa, Ont.—The Governor-General has postponed until next autumn his trip through western Canada, it was announced Wednesday night, January 13, at Rideau Hall. Originally planned for the spring, the trip now will be made in time to enable Lord Bessborough to attend the Canadian Pacific Exhibition in Vancouver next fall.

Except for one or two brief excursions to Toronto and Montreal, the Governor-General and Lady Bessborough will remain in Ottawa for the parliamentary session. It will be the first session opened officially by Lord Bessborough.

Lady Bessborough will leave for England at the end of February for a short visit. Subject to the date of the Ottawa Imperial Conference, the Governor-General expects to take up his summer residence in Quebec City at the beginning of June.

In Favor Of Union

Manitoba Liberals Endorse Proposal Of Union Government For Manitoba

Winnipeg, Man.—Action of Dr. Murdoch Mackay, Provincial Liberal Leader in approving Premier Bracken's proposal of a Union Government for Manitoba was endorsed by the Manitoba Liberal Association at its annual meeting here. Sharp opposition to the merger of the Liberal and Progressive forces in the Province was expressed but the proposal carried on a standing vote and an amendment to give it the traditional six-months' hoist was defeated.

Premier Bracken some months ago invited the Liberal, Conservative and Labor opposition groups in the legislature to join in the formation of a union government with cabinet representation for all. The invitation was rejected by the Conservative and Labor wings of the Opposition but accepted on behalf of the Liberals by Dr. Mackay who defended his stand at the convention, and was endorsed.

Ex-Kaiser's Sister Dies

Former Queen Sophie Of Greece Succumbs To Lingering Illness Frankfurt-On-Main, Germany.

Former Queen Sophie of Greece, sister of former Kaiser Wilhelm, died at a clinic here after a lingering illness from cancer. She was 61 years old.

The one-time queen of the Hellenes had lived in Florence, Italy, since the death of her husband, King Constantine, in exile at Palermo on January 11, 1923. She came to Frankfurt last November to seek the advice of a specialist, who operated on November 12, but found her ailment too far advanced for successful treatment.

During the last week, she underwent a series of relapses. Her children, George, Paul, Helen—Queen of Roumania—and Irene, were called to the bedside each time.

Meighen May Be Appointed To Senate

Likely To Succeed Late Sir George Foster Is Report

Ottawa, Ont.—The Journal publishes the following:

"The appointment of Rt. Hon. Arthur Meighen, a former Prime Minister of Canada, to the Senate in succession to the late Sir George Foster, and also the naming of the former Conservative Leader to the position of government leader in the Upper House is being favorably considered by the government."

Hon. W. B. Willoughby is the present government leader in the Senate. During the last session Senator G. D. Robertson, Minister of Labor, represented the government in the Senate and assisted in the leadership.

Rumor Is Denied

Edmonton, Alberta.—Rumors that Premier Brownlee will sever connections with the Alberta for an Ottawa post are not treated with much consideration here. The legislature is due to open February 4. There is not even indication of a cabinet shake-up.

HEADS BRITISH REPARATIONS DELEGATION

Sr. John Sifton, British Foreign Minister, who will head the British delegation to the Reparations Conference at Lausanne, according to reports from London, England.

Manitoba Farmers Need Aid

Appeal For Dominion Funds Made By Minister Of Agriculture

Winnipeg, Man.—An appeal for Dominion aid to hard-up farmers of Manitoba was made Wednesday, Jan. 13, by Hon. Albert Prefontaine, Provincial Minister of Agriculture, when he conferred with Hon. Robert Weir, Minister of Agriculture in the Dominion Cabinet. The situation among farmers in Manitoba generally was just as desperate as those of other parts of Western Canada, he said.

Many farmers were facing destitution, continued Mr. Prefontaine, who said that aid in the shape of feed and seed grain was needed for them to face another year. "Unless feed was forthcoming many would be forced to part with their cattle, he said."

Trans-Atlantic Flight

B.C. Aviators Will Attempt Aeroplane Solo Flight Next Summer

Nelson, B.C.—Eric Redgrave-Gunner, of Fernie, B.C., who has announced his intention to attempt this summer a trans-Atlantic aeroplane solo flight, and also a trans-Canada flight from Montreal to Vancouver, is a pilot of many years experience, having taken up flying in 1914 before the outbreak of the war. He has received word of financial backing from England for his trans-Atlantic attempt.

A pre-war pilot in England, Redgrave-Gunner has been a commercial pilot and instructor in the Crow's Nest Pass cities of Fernie and Cranbrook. He was born in Alton, Hampshire, England, in 1896.

Lower Living Costs

Ottawa, Ont.—Cost of living index numbers, with very few exceptions, had much faster in 1931 than in 1930, which may be taken as a favorable development. Wholesale and retail prices levels must come closer together before a substantial improvement in business can be anticipated, says a report on price movements in 1931, issued recently by the Bureau of Statistics.

JAPAN'S "OLD FOX" AND FAMILY

Here is the first intimate photograph of Mr. Tsuyoshi Inukai, new Premier of Japan, made as the statesman sat in his family circle, at their home in Tokyo. Left to right are Mrs. Tsuyoshi Inukai, Premier Inukai, Mrs. Nakakono, his daughter-in-law, and one of the Premier's many grandchildren. The venerable statesman rarely has the opportunity for family reunions when he is directing his country's Manchurian policy, so this photo may be regarded as distinctly unusual.

Condemns Protection Policy

Hon. Mackenzie King Asks Government To Modify Position On Tariff

Winnipeg, Man.—With the declaration that, speaking generally, if returned to power tomorrow the Liberal Party would restore the tariff levels which were in effect when it went out of office, Rt. Hon. Mackenzie King, Liberal Leader, condemned the protectionist policy of the present administration. He made a plea for action by members of parliament with a view to securing modification by the government of its position on the tariff in order that the coming Imperial Economic Conference might prove the "haseo" which that of 1930 had been.

The Liberal leader spoke at a large banquet which marked the close of the annual meeting of the Manitoba Liberal Association. An enthusiastic reception was accorded him, and at the conclusion of the meeting he was the central figure at an informal gathering where hundreds of those present were introduced.

His speech, first of the new year, contained strong criticism of the government on the grounds of waste and extravagance in the conduct of unemployment relief. It demanded why a tariff board had not been appointed. At a time of fluctuating exchanges and depreciated currencies such a board would have been valuable. The legislation had been passed at the last session.

But it was in connection with the railway situation that the Liberal leader voiced his strongest protest. The holding of secret sittings by the commission on transportation which is at present meeting in eastern Canada, he condemned in the most definite terms. "Wholly indefensible" was the phrase used by Mr. King in dealing with these secret sittings.

The Canadian National was not to be made a contestant for the condition into which Mr. Bennett's policies have served to bring this country," Mr. King asserted strongly. It must not be caused to "serve the ends of any transportation monopoly in Canada."

No Sunday Shows

Drop Proposal To Hold Moving Picture Shows On Sunday In Winnipeg

Winnipeg, Man.—Proposal to hold Sunday moving picture shows here, with revenues to be used for relief of unemployed, has been dropped. Mayor Ralph H. Webb said. Opposition to the plan had been expressed by so many citizens, the mayor said, that he doubted if even the financial returns would be worthwhile.

Collections were to be taken at the theatres, four of which would put on shows Sunday nights after church services were over.

Reward Superior To Garnet

Saskatoon, Sask.—Dr. R. K. Larmour, cereal chemist at the University of Saskatchewan, in charge of the milling and baking laboratory, in reporting on the comparison of Garnet and Reward wheats, showed that Reward was far superior.

R. C. M. P. MAY TAKE OVER THE POLICING OF WEST

Ottawa, Ont.—Negotiations for the assumption by Royal Canadian Mounted Police of the policing of Alberta along the same lines as in Saskatchewan are continuing. An announcement of a definite agreement between the Dominion and the province is expected within a few days.

A Calgary despatch asserts that efforts are being made to have Alberta take over the police-work of the city, while the R.C.M.P. assumes the work now performed by the Provincial Police.

The statement in the despatch, that the provinces generally were negotiating with the Dominion to the end that the police-work throughout the country might eventually come within the control of the R.C.M.P. could not be confirmed.

Some three years ago the R.C.M.P. assumed the duty of policing Saskatchewan, taking over the work that had been formerly done by the Provincial Police there. An agreement was arrived at between the Dominion and the Province whereby the latter undertook to contribute a lump sum to the federal treasury over a period of years in order to defray the cost incurred in this arrangement. The proposal to extend this system to Alberta emanated from the province as a result of the success attending the working out of the agreement in Saskatchewan.

Winnipeg, Man.—Manitoba would be prepared to consider any proposition leading to the policing of the whole Dominion by the Federal Government, Hon. W. J. Major, Attorney-General of Manitoba, told the Canadian Press.

He added that he had had no word from Ottawa about the matter nor had he been in conversation with Alberta. He said he could not predict what reception such a suggestion would get from Manitoba, but remarked that such a plan would save the provincial administration considerable money.

"At the present time the majority of the provinces in Canada are negotiating with the Dominion Government for the taking over of the policing of the provinces by the Royal Canadian Mounted Police."

Cannot Hold Two Positions

Civil Servants Forbidden To Accept Municipal Appointments

Ottawa, Ont.—"The Government has decided to allow Controllers Fulgence Charpentier and Daniel McCann to remain at their posts in the public service and also serve on the Board of Control for the barons of the year but will issue an order forbidding all government servants in future to accept municipal appointments," the Journal says.

"The decision of the government forbidding all government employees throughout the country from accepting municipal positions is of widespread interest as it takes in every section of the country."

"It is definitely understood the order forbidding government employees to accept municipal positions is a general one so that it will affect postmasters serving in rural municipalities and all others paid from the Federal Treasury who add the affairs of their community to their other activities."

"It is not expected the government's decision will affect municipal positions which are not elective and where no fees or salaries are paid such as on suburban roads commissions or on school boards."

"It is understood the aim of the cabinet is to prevent civil servants from drawing two salaries and also having their working hours interfered with by outside matters."

Report Not Confirmed

Winnipeg, Man.—Officials at wheat pool headquarters here said they know "nothing about" a report published in the Paris edition of the Chicago Tribune that France has agreed to buy 20,000,000 bushels of wheat from Canada. Canadian officials in Paris deny there is any truth in the report.

Championship Hockey.

Followers of the hockey game had a splendid opportunity Tuesday evening to see how Hockey should be played, when Eddie Mayer's champion aggregation whitewashed the Onaway bunch, the best team in the League. Mr Bennett of Onaway had his All-star puck-chasers with him, but this availed him nothing against Stony's best team. Goalkeeper Mayer was at his best, stopping the almost incessant volley of shots during the 3d period in splendid style. The first goal for Stony was scored by Sparks, of the Light Brigade.

Election for Trustees.

The ratayers of Stony Plain Consolidated school district held their annual meeting on Tuesday, with Mr Wurtz in the chair.

In the Lindley S. D. unit Mr John Staub was elected Trustee unanimously, former Trustee Jno Hennig, declining a re nomination.

In Stony Plain Village unit Mrs Wood was nominated in opposition to Dr Walton, who was seeking re-election. The doctor won by 7 votes, the balloting showing: Walton 38, Wood 31.

Stony Plain and District

Mr Hauss Trapp, the mechanic, has sent word down to the Mayor of Calgary that he may expect the former to arrive in his burg some time next week.

There is a lot of speculating going on at present as to whom will represent Stony Plain curling club at the Edmonton bonspiel next month. The Railbird says it looks to him as though the representative quartet will probably be Jac McCulla, H Miller, A E Michael, G Oppertshausner, if their business engagements permit.

White, yellow, pink, gold, high bridge frames are the latest in spectacles. See M Mecklenburg, as Stony Plain Friday March 4.

The Moose Lodge is putting on another dance at their hall on Feb. 5th.

EGGS WANTED at the Royal Cafe; best prices paid.

Heard on Main Street.

Butcher—Come on there, Willie. Break the bones in Mrs Smith's shoulder, and put Mrs Brown's ribs in a bag for her."

Willie—All right, sir, just as soon as I've sawed off Mrs Walker's leg."

Calendar

JANUARY—
22—"Too Many Wives" at Moose Hall.
FEBRUARY—
4—Town Council meets
5—Boxing Bouta and Dance, at Onaway
5—Dance in Moose Hall.
9—Fast Night.
10—Ember Day.
10—Women's Institute meets

With the Curlers.

A new draw was made on Friday Jan 8th, which commenced Monday Jan. 11, to be played starting at 9 o'clock each evening until after the Bonspiel is over, when the starting time will revert back to 8 p.m. The following is a list of the personnel of the rinks in their draw—

A Chevrolet Improvement.

The gasoline gnage of the 1932 Chevrolet has been re designed and a baffle plate added to the gas tank—improvements that combine to insure accuracy of the gnage reading and prevent any flickering of the dial hand.

A Gully Manoe.

A country school board was visiting a school, and the Principal was putting his pupils thru their paces.

"Who signed Magna Charta Robert?" he asked, turning to one boy.

"Please, sir, twasn't me, whimpered the youngster.

The teacher, in disgust, told him to take his seat, but an old tobacco chewing countryman on the board was not satisfied. After a well directed aim at the cuspidor he said:

"Call that boy back. I don't like his manner. I believe he did do it."—Yegreville Observer.

Callahoo—Savard.

A very pretty wedding took place at St Joseph's Church, Spruce Grove, on Tuesday, Jan. 12th, when, Miss Violet Savard (daughter of Mr and Mrs Jas Savard, Wabamun) was married to Mr Roderick Callahoo, son of Mr and Mrs Jas Callahoo of Spruce Grove district.

The pastor of the church, Rev C Keenan, performed the ceremony. The bride was assisted by her sister Miss Rose Savard; the groomsmen being Mr Edward Gray of Onaway.

Do you know that the high bridge in glasses is the latest style. See M Mecklenburg, who will be at the Royal Hotel, in Stony Plain, on Friday March 4.

Spruce Grove News

Your correspondent hears that it was a very interesting time in the Schoolhouse on the 9th, when the school district ratayers convened at their annual meeting. When nominations were called for the position of trustee, made vacant by Trustee Jac Brox's term having expired, an effort was made to check the system whereby all the trustees came from Spruce Grove village; and when Trustee Jac Brox was re-nominated, Mr Henry Schellenbrger's name was submitted.

On the vote being counted, it was found that Trustee J Brox was re-elected by 1 vote—the count showing—Schell-berger 12, Brox 13. The Board is now composed of: R Sherwin, J Brox and Wm McLeod, the latter being the chairman.

If others failed to satisfy you, See M Mecklenburg, at the Royal Hotel, Stony Plain, Friday March 4

Open Seasons for Game.

Ducks and Geese—Sept 15 to Nov 14th.

Hungarian Partridge—Oct 1 to Nov. 15

Here and There

In 1930 the Canadian Pacific Railway paid out in taxes in Canada \$7,447,606 and for the year 1931 its taxes will run to over \$7,500,000. The promotion of the company's total tax payments in Canada to more than \$12,000,000.

Jim London, world heavyweight wrestling champion at the time of his recent trip into the New Brunswick woods, bagged a black bear, weighing 300 lbs. The animal, wounded by two shots, charged London who dropped his rifle and resorted to a knife with which he killed the bear.

Nova Scotia is coming into its own as a holiday province. In 1932 more than a quarter of a million tourists visited the province, the largest number of summer visitors in its history, according to records by Hon. P. C. Black, provincial Minister of Highways.

To have joined the Canadian Pacific Railway at the time of its organization in 1881 and in the last seven years to have examined more men for promotion to engineer rank, than any other employee of the company, is the outstanding record of Albin Macdonald of Toronto, who has just retired from the position of Rule Examiner for the Motive Power department at Montreal.

The Brockville Recorder in a recent editorial urges all Canadians who are planning to be holidaying outside the Dominion this winter to consider the advantages of British Columbia. There the Canadian dollar stands at par and where the climate is the equal of any to be found in the United States. Great Britain, the editorial adds, has set the example for Britnians who Canadians should be patriotic enough to follow.

The high reputation of Canada for the pacific settlement of disputes with foreign powers is as an example that exerts considerable influence in the councils of the League of Nations and indicates that the Dominion should play an important part in the coming disarmament conference at London, says Colonel David Carnegie, C. B. E. noted lecturer on the promotion of peace, who recently sailed for Great Britain aboard the Duchess of Richmond.

Beginning their first Canadian tour, the athletes of the University of Oxford and Cambridge, arriving at Halifax by Canadian Pacific steamship Moncton, went on via Montreal to Lacerte-in-Quebec and from thence went to St. Marquette in the Laurentians where they will contest against each other and with Canadian universities. The teams were welcomed at the Windsor station, Montreal by Lord Duncanson, son of the Governor-General, himself an under-graduate of Cambridge University.

Montreal, Windsor station First Aid Police team and the first Canadian Pacific All-Lines champions having defeated the western champions of Nelson, B.C., by 5-3 points in the finals recently decided. The Police team have won every first aid competition in Canada possible for a police team to win, including the Quebec Provincial championship, the Shachnessy Shield, representing the championship of Eastern Canada and the Sherwood Shield emblematic of the police championship of Canada.

GLYCERIN MIX REMOVES CAUSE OF STOMACH GAS

Simple glycerin, buckthorn bark, salin, etc., as mixed in Adlerika, acts on BOTH upper and lower bowel, removing poisons you never thought were there and which caused gas and other stomach trouble. Just ONE spoonful relieves GAS, sour stomach, sick headache and constipation. Don't take medicine which cleans only PART of bowels but let Adlerika give you a REAL cleaning and see how good you feel! It will surprise you! J. F. CLARKE, Drug-gist.

CHAPTER XI.

"The Sin of the Fathers—"

A few days later, Jean, coming in from a long tramp across country in company with Nick and a half a dozen dogs of various breeds, discovered Tormarin lounging in a chair by the fire. He was in riding kit, having just returned from visiting an outlying corner of the estates where his bailiff had suggested that a new plantation might be made, and Jean eyed his long supple figure with secret approval. Like most well-built Englishmen, he looked his best in kit that demanded the donning of breeches and leggings.

A fine rain was falling out of doors, and beads of moisture clung to Jean's clothes and sparkled in the blown tendrils of russet hair which had escaped from beneath the little turban hat she was wearing. Apparently, however, her appearance did not rouse Tormarin to any reciprocal appreciation, for, after bestowing the briefest of glances upon her as she entered, he averted his eyes, concentrating his attention upon the misty ribands of smoke that drifted upwards from his cigarette.

Jean knelt down on the hearth, and pulling off her rain-soaked gloves, held out her hands to the fire's cheerful blaze.

"It's good-bye to all the skating," I'm afraid," she said regretfully. "Nick says we're not likely to have another hard frost like the last, now

that the weather has broken so completely."

"No. It's April next month—supposedly springtime, you know," returned Blaise indifferently.

He seemed disinclined to talk, and Jean eyed him contemplatively. His attitude towards her baffled her as much as ever. He was unfavourably courteous and considerate, but he remained, nevertheless, unmistakably aloof, avoiding her whenever it was politely possible, and when it was not, treating her with a cool neutrality of manner that was as complete a contrast to his demeanour when they were together at Montavan as could well be imagined. Indeed, sometimes Jean almost wondered if the events of that day they spent amid the snows had really taken place—they seemed so far away, so entirely unrelated to her present life, notwithstanding the fact that she was in daily contact with the man who had shared them with her.

"It was rather uncomplimentary of you not to come skating with us a solitary once," she remarked at last, an accent of reproach in her voice. "Was my performance on the rink at Montavan so execrable that you felt you couldn't risk it again?"

He looked up, his glance meeting hers levelly.

"You've phrased it excellently," he replied briefly. "I felt I couldn't risk it."

A sudden flush mounted to Jean's face. There was no misunderstanding the significance that underlay the curt words, which, as she was vibrantly aware, bore no relation whatever to her skill, or absence of it, on the ice.

Blaise made no endeavour to relieve the awkward silence that ensued. Instead, his eyes rested upon her with a somewhat quizzical expression, as though he were rather entertained than otherwise by her evident confusion. Jean felt her indignation rising.

"It is fortunate that other people are not so nervous," she said disdainfully. "Otherwise I should find myself as isolated as a fever hospital."

"It is fortunate indeed," he agreed politely.

In the course of the three weeks which had elapsed since her arrival at staple, Jean had dared several similar passages-at-arms with her host. Woman-like, she was bent on getting behind his guard of reticence, on forcing him into an explanation of his altered attitude towards her—since no woman can be expected to endure that a man should completely change from ill-suspecting ardour to a cool, impersonal detachment of manner, without asking to know the reason why! But in every instance Tormarin had carried off the honours of war,

WHEN FOOD SOURS

ABOUT two hours after eating a many people suffer from sour stomach. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—a just tasteless dose in water. It is pleasant, efficient and harmless. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia, prescribed by physicians for correcting excess acids. See a bottle—any drug store. The ideal dentifrice for clean teeth and healthy gums is Phillips' Dental Magnesia, a superior toothpaste that safeguards against acid-mouth. (Made in Canada.)

parrying her small thrusts with a lazy insouciance which she found galling in the extreme.

Hitherto she had encountered little difficulty in getting pretty much her own way with the men of her acquaintance; she had sufficient the temperament and charm of the red-haired type to compass that. But her efforts to elucidate the cause of the change in Blaise Tormarin were about as prolific of result as the efforts of a butterfly at stone-breaking.

Fortunately for the preservation of peace, at this juncture there came the sound of voices, and Lady Anne entered the room, accompanied by a visitor. Her clever, grey eyes flashed quickly from Jean's flushed face to that of her son, but, if she sensed the electricity in the atmosphere, she made no comment.

"Blaise, my dear, here is Judith," she said pleasantly. "I found her wandering forlornly in the lanes, so I drove her back here. She has just returned from town, and for some reason her car wasn't at the station to meet her."

"I wired home saying what time I should reach Coombe Elvies," exclaimed the new-comer. "But as I was rather late reaching Waterloo, I rashly entrusted the wire to a small boy to send off for me, and I'm afraid he played me false. I should have had to trudge the whole way back to Willow Ferry if Lady Anne hadn't happened along."

Lady Anne turned to Jean, and, laying an affectionate hand on her arm, drew her forward.

"Jean, let me introduce you to Mrs. Craig. My new acquisition, Judith," she went on contentedly. "A daughter. I always told you I wanted one. Now I've borrowed someone's else's."

Jean found herself shaking hands with a slender distinctive-looking woman who moved with a slow languorous grace that was almost snake-like in its peculiar suppleness. She gave one the impression that she had no bones in her body, or that if she had, they had never hardened properly but still retained the pliability of cartilage.

She was somewhat sallow—the consequence, it transpired later, of long residence in India—with sullen, slate-colored eyes, appearing almost purple in shadow, and a straight, thin-tipped mouth. Jean decided that she was not in the least pretty, though attractive in an odd, feline way, and that she must be about thirty-two. As a matter of fact, Judith Craig was forty, but no one would have guessed it—and she would certainly not have confided it.

Presently Nick, who had been personally supervising the feeding of his beloved dogs, joined the party, greeting Mrs. Craig with the easy informality of an old friend, and shortly afterwards Blaise brought in the tea-things.

"And where is Burke?" enquired Blaise of Mrs. Craig, as he handed

her tea. "Didn't he come back with you?"

"Geoffrey? Oh, no. He's not coming down till the end of April. You know he detests Willow Ferry in the winter—heavily wet swamp, he calls it! He's dividing his time between London and Leicester—London, while that long frost stopped all hunting."

Mrs. Craig was evidently on a footing of long-established intimacy with the Staple household, and Jean, listening quietly to the interchange of news and of little personal happenings, regarded her with rather critical interest. She was not altogether sure that she liked her, but she was quite sure that, wherever her lot might be cast, Judith Craig would never occupy the position of a non-entity. She had considerable charm of manner, and there was a quite unexpected fascination about her smile—unexpected, because, when in repose, her thin lips lay folded together in a straight and somewhat forbidding line, whereas the moment they relaxed into a smile they assumed the most delightful curve, and two little lines, which should have been dimples but were not, cleft each cheek on either side of the mouth.

All at once Mrs. Craig turned to Jean as though she had made up her mind about something over which she had been hesitating.

"Have I seen you anywhere before?" she asked, her charming smile softening the abruptness of the question. "Your face is so extraordinarily familiar."

Jean shook her head.

"I don't think so," she answered. "I'm sure I should remember you if we met anywhere. Besides I've lived about all my life; this is only my first visit to England."

"I think I can explain," said Lady Anne. There was a deliberateness about her manner that suggested she was about to make a statement which she was aware would be of some special interest to at least one of the party. "Jean is Glyn Peterson's daughter; so of course you see a likeness, Judith."

(To Be Continued.)

A pleasant medicine for children is Mollin's Liver and Kidney Extract, and it is excellent for driving worms from the system.

Little Helps For This Week

"If any man will come after me, let him deny himself, and take up his cross daily, and follow Me."—Luke ix. 23.

Mine is a daily cross of petty cares, Of little duties pressing on my heart, Of little troubles hard to reconcile, Of inward troubles overcome in part.

I dare not lay it down; I only ask That, taking up my daily cross, I may Follow my Master, humbly, step by step, Through clouds and darkness, unto Perfect day.

Christ comes to us morning by morning to present to us for the day then opening divers little crosses, thwartings of our own will, interferences with our plans, disappointments of our little pleasures. Do we kiss them, and take them up and follow in His rear, like Simon the Cyrenian, or do we toss them from us scornfully because they are so little, and wait for some great affliction to approve our patience and resignation to His will? Despite not little crosses; for when taken up and lovingly accepted at the Lord's hand, they have made men meet for a crown, even the crown of righteousness and life, which the Lord hath promised to them that love Him.—Edward Meyrick Gouldburn.

Try Lydia E. Pinkham's Vegetable Compound

She's all worn out again
Poor girl... she has the same old headaches... backaches... and blues. She ought to try Lydia E. Pinkham's Vegetable Compound in tablet form.

W. N. U. 1926

Try Miss McFarlane's Favorite Recipe for BISCUITS

1/2 teaspoon salt
2 cups pastry flour
(or 1 1/2 cups
bread flour)
1/2 cup milk, or half milk and half water

4 teaspoons Magic
Baking Powder
2 tablespoons
shortening
1/2 cup milk, or half milk and half water

Mix together, flour, baking powder and salt. Cut in the chilled shortening. Now add the chilled liquid to make soft dough. Roll dough onto a floured board and do not handle more than is necessary. Roll or pat out with hands to about 1/4 inch thickness. Cut out with a floured biscuit cutter. Place on slightly greased pan or baking sheet and bake in hot oven at 450° F. 12 to 15 minutes.

"For Light, Flaky

Biscuits

use Magic
Baking Powder."

says Miss M. McFarlane,
dietitian of
St. Michael's Hospital,
Toronto

"I RECOMMEND Magic because I know it is pure, and free from harmful ingredients."

Miss McFarlane's opinion is based on a thorough knowledge of food chemistry, and on close study of food effects upon the body. On practical cooking experience, too. Most dietitians in public institutions, like Miss McFarlane, use Magic exclusively. Because it is always uniform, dependable, and gives consistently better baking results.

And Magic is the favorite of Canadian housewives. It outells all other baking powders combined.

You'll find Magic makes all your baked foods unusually light and tender... and gives you the same perfect results every time.

Free Cook Book—When you bake at home, the new Magic Cook Book will give you dozens of recipes for delicious baked foods. Write to Standard Brands Ltd., Fraser Avenue and Liberty Street, Toronto, Ont.

Made in Canada

Athletes and Heart Trouble

No Such Thing As "Athlete's Heart," Says University Professor

"Athlete's heart" is non-existent so far as two University of Wisconsin professors have been able to determine. Coaches have long guarded against overworking athletes in the belief that too strenuous competition resulted in enlarged hearts and a consequent loss of efficiency. Experiments at Madison have shown no evidence of hypertrophy in athletes. Dr. Walter J. Meek and Prof. J. A. E. Eyster, professors of physiology made observations on 83 men and 84 women at the university. All had indulged in four years' of high school athletics and at least two years of college athletics.

"SICK HEADACHE?"

IT is not necessary to give-in to headaches. It is just a bit old-fashioned! The modern woman who feels a headache coming on at any time, takes some tablets of Aspirin and heads it off.

Keep Aspirin handy, and keep your engagements. Headaches, systemic pains, come at inconvenient times. So do colds. You can end them before they're fairly started if you'll only remember this handy, harmless form of relief. Carry it in your purse and insure your comfort while shopping, your evening's pleasure at the theatre. Those little nagging aches that bring a case of "nerves," by day are ended in a jiffy. Pains that once kept people home are forgotten half an hour after taking Aspirin! You'll find these tablets always help. In every

package of Aspirin tablets are proven directions which cover colds, headaches, sore throat, toothache, neuralgia, neuritis, sciatica, and even rheumatism.

The tablets stamped Bayer won't fail you, and can't harm you! They don't depress the heart. They don't upset the stomach. So take them whenever you need them, and take enough to end the pain. Aspirin is made in Canada.

Made in Canada

Clarke v. Wood and Wilson.

The action of J F Clarke for damages occasioned to his car as a result of a collision with a truck operated by B T Wilson and owned by The 'Wood, both of Edmonton, came up before His Honor Judge Crawford last Wednesday.

It appeared that the defendants' truck was being towed to Edmonton, there being three trucks in line. The plaintiff's car, operated by Giles Clarke, passed the first two trucks, but collided with the third.

The defence contended that the plaintiff's car had turned in to the truck; but, after hearing all the evidence, His Honor decided that the truck had failed to keep to the right side of the road, and gave judgment for the plaintiff.

Geo J Bryan appeared for the plaintiff; A H McLaughlin, of Short & Cross, appeared for defendants.

Schedule of Mails.

To the East—Every day except Monday; train No. 2, at 15.44.
From the East—Every day except Sat.; train No. 1, at 11.44.
To West—Sun., Tues. & Thurs.; train No. 1, at 11.44.
From West—Sun., Wed. & Friday train No. 2 at 15.44.

The most comfortable and most serviceable caps made for golf, motorcycling and all outing occasions, as well as street wear.

T. J. Hardwick, Agent
Stony Plain.

They Have Returned.

Mr and Mrs Nick Bauer Sr. and Mr and Mrs Nick Bauer Jr. and children, who left here a few months ago to reside in the suburbs of Vancouver, B.C., are said to have not been any too well pleased with prospects at their new location, and returned to this town on the Sunday train. Mr and Mrs Alec Bauer, who left here with the party for Vancouver, returned at the same time.

The Juniors Play at Leduc

Eddie Mayer took his team of puck-chasers down to Leduc Friday, to play the return game with the Juniors there. Apparently the cold trip down was too much for the constitutions of Eddie's aggregation as the best they could do with the Leduc players was a 3-2 score against them.

Hockey Gossip.

A very regrettable incident occurred on Friday afternoon last, as hockey team No. 3 was leaving town to motor to Leduc. Young Izzy, who had spent the afternoon trying to negotiate a free ride to Leduc, forgot to jump aboard the last auto as it was pulling out; consequently, Izzy spent the evening at the Royal Cafe, listening to his team's game as it came, play by play, over the radio from the Leduc Arena.

Everything is alright again in local hockey circles. At the beginning of the season hockey fans thought that one had been put over on them, when they noticed that that invincible pair the Gold Dust Twins had been split—each apportioned to a different team. In previous seasons, every time the Twins played, their team won. The pair was split this season, and fans had reason to believe the managers and coaches had pulled a boomer. The fairness in separating them is now seen; as leaving them on the one team made the rest of the players look like nondecripts.

The Flyers lost their hockey game on the Zucht rink Sunday against the other local team. There was some pretty hard checking at times, indulged in seemingly by players on both sides. This may have been the cause of the display of fatigues which occurred in the third period, which proved, while it lasted, even more interesting than the game.

Hockeyists take their playing as serious as if they were pro's. Another of the casualties at the Sunday hockey game was the broken nose donated by a relative to Ph Enders, who had returned the day before from Chicago.

The postponed game from Jan. 11th between the Wurstmacher's crew and the Bentegers will be played Saturday night.

The Flyers go to Onoway to night, and Wabamun's team play here Sunday afternoon.

Monday's game in the Midgut League resulted in a win for the Indians over the Eskimos. H Ostway refereed.

Stony Seniors are at present full of dates to play, as, with their engagements in the local league, they are likely to play games with their former Leaguers, the teams at Morinville, St. Albert and Leduc. This week they got a bid to play a game at Canrose, and they may accept this if they can get their former mascot Erik to accompany them.

Appoint New Heads to C.P.R. Departments

Canadian Pacific Railway Telegraph Department has with the New Year changed its name to the Department of Communications having supervision over the telegraph, telephone and radio broadcasting services of the railway. To the head of the new department Mr. W. D. Nell is appointed as general manager, vice Mr. John McMillan, retired.

W. D. Nell

Mr. T. Fawcett is appointed General Storekeeper of the Canadian Pacific Railway with headquarters at Montreal and Mr. A. A. Goodfellow takes the position of assistant general manager. Mr. T. Fawcett is an operator in 1909 at Vancouver and has been in the West during all his service except for a year in Montreal as traffic superintendent. He became assistant manager eastern

lines and in 1924 assistant manager western lines. Since 1930 he has been assistant general manager of the department and now is promoted chief.

Mr. McMillan became a construction foreman with the Canadian Pacific in 1883 and passed through various grades of promotion in the West until March 1916 when he was promoted manager of Telegraphs at Montreal. He has been general manager, Canadian Pacific Telegraphs since 1921 from which position he now retires.

John McMillan

Mr. Goodfellow started with the Canadian Pacific as an operator in 1899 at Vancouver and has been in the West during all his service except for a year in Montreal as traffic superintendent. He has been in Vancouver as super-

intendent of Telegraphs since 1930 and is promoted from that position to his present post at Montreal.

Mr. Fawcett entered the company's service in 1905 as clerk in the vice-president's office at Winnipeg. Passing through various positions always in the West he became general storekeeper western lines with office at Winnipeg in 1917 from which he is now promoted general store-keeper of the whole Canadian Pacific system with headquarters at Montreal.

A. A. Goodfellow

Mr. Goodfellow had already a record of work with British commercial firms in London, England, and with the Grand Trunk in Canada before he joined the Canadian Pacific Railway as a clerk in the Comptroller's office at Montreal in 1885. By October 1899 he had risen to the position of assistant auditor of disbursements. Similar auditor's appointments followed in 1901 and 1904 until in 1913 he became general store-keeper, eastern lines, from which post he now retires.

Church Services.

Services in St. Philip's Church next Sunday, 9.30 a.m.
German Lutheran services will be held in Stony Plain next Sunday at 2.30 p.m.
United Church service every Sunday Evg. at 7.30.

Obituary

Mrs Charlotte Weidman passed peacefully away at her late residence on Thursday, Jan. 15th, aged 84 years, 5 months, 21 days.

Deceased was born in Russia July 24, 1849, and came to Calgary in 1911, and settled on a homestead near Hilda in 1912.

In 1917 her dear husband died; she thereafter lived with her daughter Rosine, Mrs Wm Bauer, with whom she came to Stony Plain in 1926, and settled in Bright Bank district with them.

Mrs Weidman had had 12 children, of which 6 are only living now—

Christine, wife of Gottlieb Bredo
Ltony Plain
Rosina, wife of Wm. Bauer, of Stony Plain
Magdalena, wife of Edw Bauer, Surprise, Sask.
Jakobine, wife of J F Bauer of Stony Plain
Sophia, wife of J Kaiser, Russia
Susanna, wife of K Katzke, of Russia.

The funeral took place on Sunday, Jan 17; services being held in the Zion Lutheran church at Bright Bank; Rev H Frey was the officiating clergyman. Interment was made in Zion churchyard; the remains being followed to the grave by a large number of her friends and relatives.

Mr John Armbruster had charge of the funeral arrangements.

WHY SUFFER FROM HEADACHES,

Pain in and around the Eyes? The right glasses fitted to your eyes will surely relieve you and give you comfort.

Glasses furnished Free. Ten dollars examination fee. That is far cheaper than paying \$3 to \$10 for an examination and then glasses at \$12 to \$15; but if you cannot see the logic of this: you need more than glasses.

M. M. Mecklenburg,
41 Years' Experience,
28 years in Western Canada.
